

Prof. Afang Zhang

Shanghai University, China

Afang Zhang earned his MS (1988) and PhD (1999) from University of Science & Technology of China and Peking University, respectively. He became an associate professor in 1992 and full professor in 1998 at the Chemistry Institute of Henan. After working at the Deutsches Kunststoffinstitut, Free University of Berlin, Zhengzhou University, and then ETH Zürich, he joined Shanghai University as a distinguished professor by the end of 2010. Thereafter, he became a 1000 plan Scholar affiliated to the Shanghai Government. His research interests comprise dendritic supramolecular polymers, peptide-related helical polymers, and polymers with switchable properties.
